

# GERMAN AND AUSTRIAN ARMY OFFICERS NO LONGER FRIENDLY

proaches of Ypres, in the region of Zonnebeke and to the east of Armentières.

"There has been no change in the positions held by the British army, which repulsed the attacks of the enemy and particularly an offensive movement undertaken by a detachment of the Prussian Guard.

"From the canal of La Bassée as far as and up to the River Oise there have been minor engagements.

"In the region of the River Aisne, in the neighborhood of Vailly, we retained our positions against a counter-attack and we strengthened our positions in the territory previously conquered by us.

"In the region of Craonne and on the Heurtebise Farm our artillery succeeded in reducing to silence the cannon of the enemy. Several of their pieces were even destroyed. We also made some progress in the vicinity of Berry-au-Bac.

"In the Argonne, in the Woëvre district, in Lorraine and in the Vosges the respective positions show no change."

Ypres, which was set on fire early in the week by shell fire, was reported still in flames to-day. The allied forces continue to hold the town. Several non-combatants, including three children, are reported to have been killed by German shells.

## Cruiser Goeben, Hit by Shell Near Waterline, Badly Damaged

PETROGRAD, Russia, Nov. 12 (Associated Press).—A despatch from Constantinople says that the Turkish cruiser Goeben was penetrated by a shell at her waterline during the recent bombardment of the Dardanelles by the allied Anglo-French fleet. The damage inflicted is described as serious.

The Goeben and the Breslau, formerly German cruisers, were taken over by Turkey after the outbreak of the war.

## WAR SUMMARY

Paris reports continuous fighting from the River Lys to the coast, with alternating advances and retirements.

The Russian pursuit along the Silesian frontier has slackened. The Germans are making efforts to further strengthen their present line of fortresses, and the marvellous system of strategic railroads extending along the line of fortresses between Graudenz, Thorn, Posen and Cracow will enable them to bring up reinforcements.

The rumor still continues that the German Crown Prince was in command of the German centre which gave way before the Russian assault outside of Warsaw, and he is being blamed for this rout.

A despatch from Petrograd declares that the discussions between Gen. von Hindenburg, commander of the German forces in East Prussia, and Gen. Dankl, the Austrian commander, are so acute that Austrian officers are refusing longer to co-operate with the German staff.

Vienna officially admits the withdrawal of the Austrians from Western Galicia and the complete investment by the Russians of the Przemyel fortress.

The wave of optimism which has been sweeping England was checked to-day by news of the occupation of Dinamo by German forces and the renewed indications of the peril in the destruction by a German submarine of the torpedo gunboat Niger.

Armentières, which has been a constant bone of contention, being first occupied by the invaders and by the defenders, has now become too hot for occupation by either side. The Germans are on the hills on one side of the town and the allies are attacking it unceasingly from the other.

## AUSTRIANS BREAK WITH GERMANS, PETROGRAD SAYS

Circumstantial Reports That Gen. Dankl Has Refused to Obey Kaiser's General Staff.

PETROGRAD, Nov. 12 (United Press).—Reports are reaching here of serious discussion between Gen. Dankl, commanding the Austrian army, and the German generals. The Austrian commander, it is declared, has refused to co-operate further with the German General Staff.

Officers who have been captured declare that the Austrian troops have been constantly placed in the worst positions in the fighting and treated with contempt by the Germans. Fighting between German and Austrian officers who were captured is so bitter, it is said, that the Russians keep them separated.

It is still stated here that the German Crown Prince led the advance upon Warsaw and his failure to hold the centre was responsible for the hasty retreat when the failure of the prince's army to hold its own left the wings in a serious position.

An official report from the army of the Caucasus declares the Russians have occupied the entire valley of Alaouk. An attempt of the Turks to turn the Russian flank has been defeated. There have been small skirmishes in the region of La River.

Since 1823 we have made our Whiskey for the man who drinks wisely.

Our best customer—always—is the man who uses good things moderately.

So, for his protection we invented the Non-Refillable Bottle—that he may be sure of getting Real WILSON—mild and mellow—every time.

## BRITISH WARSHIP SUNK OFF DEAL BY SUBMARINE

German Craft Creeps Under Mines Intended to Protect London.

ALL THE CREW SAVED.

Sunken Boat Picked Out From Fleet of Hundred Lying Off Deal.

LONDON, Nov. 12.—In approaching within a mile of the British coast off Deal and sinking the gunboat Niger the German submarine which accomplished the feat passed directly through the mine field recently laid for the protection of London and the Straits of Dover. It was realization of this which to-day aroused the British Admiralty, as it was again forced to consider means of meeting the German submarine menace.

The sinking of the Niger has caused consternation along the coast. An explosion on the gunboat and great volumes of smoke first gave warning of the disaster. When the smoke cleared the Niger was observed to be settling down forward. The Deal and Kingsdown lifeboats, as well as boats from other parts of the beach, were launched in an effort to save the sailors. Fortunately the North Deal gally Hope, commanded by Capt. John Budd, lay at anchor near the spot. When the boatman realized that the Niger had been hit by a submarine or mine, to use their own expression, they rowed like the very devil.

The Niger was built in 1892. She had a displacement of 810 tons and was 230 feet long. Her armament consisted of two 4.7 inch guns, four 3-pounders, one machine gun and three 18-inch torpedo tubes. Her speed was 19.3 knots.

All the officers and seventy-seven of the crew were saved. Four men were injured. It is thought that there was no loss of life.

Commander Muir says he saw the torpedo which sank his vessel. It struck the ship just aft of the foremast. One of the crew said he saw the long gray body of a submarine come to the surface, but it disappeared in a few moments.

About one hundred ships were anchored off Deal at the time the warship was torpedoed. A great deal of comment is being made on the fact that a small warship flying the Dutch flag had been lying in close proximity to the Niger for two days and only put to sea in the morning. In view of the disaster local mariners doubt whether this vessel was Dutch, or was only flying the flag of that country. They think it probable that this vessel was covering the movements of the submarine.

## DAVID SULLIVAN, CONVICT BANKER, COLLAPSES IN JAIL

Taken from His Cell to Hospital by Order of the Acting Warden.

OSBURNING, N. Y., Nov. 12.—David A. Sullivan, convict banker, whose automobile rides about Westchester County resulted in the dismissal of Warden McCormick of Sing Sing, has suffered a complete nervous collapse. The former President of the Union Bank of Brooklyn has been removed to the prison hospital, according to the acting warden of Sing Sing.

Miss Burkhart, former Secretary to David A. Sullivan, was for the third time a witness before the Kings County Grand Jury in Brooklyn to-day. After an hour and a quarter she came out of the jury room smiling and seemingly satisfied with her experience.

It was acknowledged about the court house that District Attorney Crosey has not gained much information from her yet.

William Watson, secretary of Warden McCormick of Sing Sing, was examined for a few minutes and then excused until to-morrow to produce some prison records.

1,200 indicted for Election Fraud. LEXINGTON, Ky., Nov. 12.—More than 1,200 men have been indicted by the Grand Jury of Pike County for buying and selling votes at the judicial election two years ago, according to a report received here to-day. The indicted men will be tried at the January term of the Circuit Court at Knoxville.

## How the Blowing Up of the Niger Gave a Shock to a Dear Old Lady

The sleepy old lady Great Britain Went steadily on with her knittin', Till a mine near her feet Blew up midst her fleet, The Niger in particles splittin'.

## SERVIANS WIPE OUT AN AUSTRIAN FORCE ON DANUBE RIVER

Report 1,000 Killed and 2,000 Captured 30 Miles From Belgrade.

NISH, Serbia (via London), Nov. 12 (Associated Press).—The six battalions of Austrian infantry, with quickfiring guns, which crossed the Danube near Siderovo under cover of artillery fire on Nov. 10, have been annihilated by a Serbian counter-attack, according to official information given out in Nish to-day.

"In the fighting around Shabatz," the report says, "the Serbian bravery, with extraordinary bravery repulsed the Austrians repeatedly, inflicting considerable losses." "On Tuesday at 3 o'clock A. M. Austrian battalions comprising about 6,000 men crossed the Danube near Siderovo (about thirty miles south-east of Belgrade) under cover of the fire of monitors and artillery. The combat lasted until 5 P. M. and resulted in a check to the enemy. About 1,000 Austrians were killed, 2,000 were taken prisoners, many were drowned and the others fled on the monitors or scattered among the vines and surrendered in groups. Among the prisoners are two colonels and several officers of lesser rank. The Serbians also took a number of quickfiring guns. The troops of the Vardar region particularly distinguished themselves in this fight."

PARIS, Nov. 12.—The American Ambassador, Myron T. Herrick, has returned from a visit to Southern France, where he visited the concentration camps, where German prisoners are held, and where Austrian and German subjects are interned. He found conditions satisfactory and is making a detailed report to the State Department at Washington.

BRIDGEPORT, Conn., Nov. 12.—Elizabeth R. Colt, whose summer home is at Ridgefield, Conn., has brought suit for divorce against Harris D. Colt, a lawyer with offices at No. 30 Broad street and lives at No. 515 Park avenue, N. Y. Mrs. Colt claims he is worth \$100,000. She wants alimony and custody of their child, Harris Jr. Desertion is the charge.

## PASSENGERS OF SUNKEN VAN DYCK COMING HERE ON FOUR STEAMERS.

The first definite news of the movements of the 350 passengers and 130 of the crew of the Lamport & Holt liner Van Dyck, which was sunk by the German cruiser Karlsruhe off the coast of Brazil on Oct. 28, was received to-day by Lawson Sanford, manager of the Booth Line, in the shape of a cablegram from Para, Brazil. The passengers and crew of the Van Dyck were landed there by a vessel to which they were transferred by the Karlsruhe. The cablegram states that twenty of the Van Dyck's company are bound for New York on the Booth liner Gregory, which sailed from Para on Nov. 3, and is due here next Wednesday. Six more are on the Sao Paulo, an Italian ship which sailed from Para on Nov. 3, and the rest are on the Byron of the Lamport & Holt line, leaving Para to-day, and the Stephen of the Booth line, leaving Para on Nov. 13.

## GERMANS HELP RELIEF WORK IN BELGIUM, SAYS AMERICAN WORKER.

LONDON, Nov. 12. (Associated Press).—Jarvis E. Bell of New York, the first member of the American Commission for Relief in Belgium to return from Belgium since the distribution of relief began, says that instead of hampering the efforts to relieve the starving population, the German authorities are doing their utmost to assist the commission in its work. "The Belgian border now is practically closed to passenger traffic, only persons on official business being permitted to pass, but members of the commission are allowed to travel back and forth without hindrance. In Belgium the shipment of foodstuffs is consigned to the American Minister, Brand Whitlock, and in care of the commission are permitted to proceed with minimum delay. Mr. Bell praises equally the Dutch officials for their assistance in the matter of food shipments.

## TWO ORDERED OUT OF ROOM AT HEARING UPON CIVIL SERVICE

Accused of Signalling Answers to Witnesses—\$3,500 Experts Under Fire.

The hearing of the up-State Civil Service Commission investigating the local commission almost broke up in disorder this afternoon when President Jacob Neu sprang to his feet and ordered John C. Wolfe, Superintendent of the Municipal Building, and another official from the room. Wolfe, who had just left the stand, was accused of prompting Harry D. Appleby, assistant engineer of the Public Works Department, who was in the witness chair. Twice before ejecting Wolfe, President Neu had cautioned a group of city officials whom he believed to be signalling answers to questions put by Special Deputy Attorney-General Frank Moss to the witness. His patience exhausted, President Neu jumped to his feet.

"You get out of this room," he shouted to Wolfe, "and you," he added, "pointing to another in the group. 'I have been watching you.' The rest of the group lapsed into silence and the examination of Appleby was resumed.

Appleby and Wolfe, both of whom were brought over from the Public Service Commission and given jobs in the Borough President's office at salaries of \$3,500 at the instance of Chief Consulting Engineer Ernest P. Goodrich, were not required to take a civil service examination, Mr. Moss brought out.

"What engineering experience have you had?" Moss asked.

"Oh, in the several years I have been in the department I've looked after the traffic reports and made maps showing the extent of subway traffic," was the response.

"Then most of your engineering experience has been in keeping records and filing reports," rejoined Mr. Moss. "Did you have experience in filing before taking your present office?"

"No, never did it before that," he replied.

"And yet you consider yourself an expert?"

"I certainly do," replied Appleby.

## U. S. AMBASSADOR FINDS GERMAN PRISONERS WELL TREATED IN FRANCE.

PARIS, Nov. 12.—The American Ambassador, Myron T. Herrick, has returned from a visit to Southern France, where he visited the concentration camps, where German prisoners are held, and where Austrian and German subjects are interned. He found conditions satisfactory and is making a detailed report to the State Department at Washington.

## MAYOR THINKS BOARD WILL GRANT TEACHERS LEAVE TO BE MOTHERS

His Opinion Indicates Understanding Between Him and Educational Head.

Mayor Mitchell to-day expressed the opinion that the Board of Education will adopt a "reasonable, wise, rational policy" in the matter of granting leaves of absence to mother teachers.

"I believe the policy will be such that teachers about to become mothers will be able to obtain a leave of absence," explained the Mayor.

"Have you any concrete information on which to base that opinion?" he was asked.

"No, I have not," he replied. "What I am giving you is my personal opinion."

It is believed there is an understanding between the Mayor and President Churchill, and that the likelihood of the Board of Education changing the by-laws to permit teachers to absent themselves during maternity is stronger than ever. Although Mayor Mitchell has not unequivocally come out for the teacher-mothers, it is understood he feels they are entitled to consideration.

The Mayor was asked if he didn't think a woman whose husband could afford to support her ought to stay at home and attend to her family. "Unless they are compelled to, the teachers will not recant the void blank ballot," he replied.

"I look at it from the viewpoint of the city," replied the Mayor. "That is, the efficiency of the teacher. Because a woman's husband cannot support her is no reason why she makes a better teacher than the woman whose husband has plenty of money. It is no doubt true that the efficiency of the teacher is somewhat impaired if she becomes a mother. But that is merely temporary, and in the long run it might make her a better teacher."

"What engineering experience have you had?" Moss asked.

"Oh, in the several years I have been in the department I've looked after the traffic reports and made maps showing the extent of subway traffic," was the response.

"Then most of your engineering experience has been in keeping records and filing reports," rejoined Mr. Moss. "Did you have experience in filing before taking your present office?"

"No, never did it before that," he replied.

"And yet you consider yourself an expert?"

"I certainly do," replied Appleby.

## MISS RODMAN STILL KEEPS ON TEACHING

Not Suspended, as Reported, Maxwell Has Recommended Such a Course.

Miss Henrietta Rodman, the teacher who has incurred the wrath of the Board of Education by writing a letter to a morning paper attacking "mother-baiting" practiced by the Board in the matter of teacher-mothers, has not been suspended from her position in the public schools, as announced in some morning papers. It was learned at the offices of the Board this afternoon that action in her case will not be taken until charges preferred by the Superintendent Maxwell are considered.

Maxwell was represented in today's reports as having suspended Miss Rodman after a stormy interview with her communication to the press. It is not within the power of the City Superintendent to take such action. It was pointed out this afternoon that he can only recommend. Maxwell has written such a recommendation to Dr. D. L. Hardwell, Day Superintendent, charging gross conduct and insubordination against Miss Rodman.

Center Fight to Have All Ball Counted.

Jacob A. Cantor, successful candidate for Congress on the regular Democratic ticket in the Twentieth Congressional District, to-day applied to the County Board of Supervisors to write to compel the County Board of Supervisors to canvass the void blank ballots cast in that district. The canvassers were sworn in a day and have been at work ever since. Unless they are compelled to, the canvassers will not recant the void blank ballot.

Sixteen years of constant application has given us knowledge of eyes an Eyeglass Service that insures you scientific—skillful eye examination—accurately ground lenses and dependable results.
